

*Converting and Fabricating*

## Custom Industrial Packaging

L-S Industries, Inc. provides custom conversion and fabrication of materials, primarily for industrial packaging, but the applications are endless. We have over 50 years of package manufacturing experience to draw from to help you find the right materials for your needs. We have a working knowledge of what materials work best in certain situations. We purchase several materials in large volumes which allows for competitive pricing. Our focus is customer service and developing a long-term business relationship with our customers.

Cutting

Laminating

Sealing

## Converting Capabilities

L-S Industries (L-SI) can:

- Cut: Our specialty saws cut rolled and sheeted materials to width and length for you.
- Laminate: We use a hot-melt adhesive to laminate different materials together. We do both rolled and sheeted materials, on one or both sides.
- Seal/Weld: Our other capabilities include heat-sealing and sonic-welding, primarily used with corrugated plastic. We have metal welding capabilities as well.

## Materials Converted

We currently purchase these materials in large volumes for stocking:

- Plastic Corrugated (rolls & sheets)
- Paper Corrugated (rolls & sheets)
- Closed-cell PE foam (rolls)
- Fiberboard, Chipboard, & Jute sheets
- Spunbond, Brushed Nylon, & Evolon®
- Solid Plastic (rolls & sheets)
- Other materials available upon request

L-S Industries celebrates over 50 years of expertise in converting, laminating, and packaging manufacturing. It is our vision to be a leader in packaging manufacturing by providing innovation. We strive to provide excellent service and timely delivery for our customers. While the packaging we provide is not your final product, we realize it is critical to your business and we treat it as such. The dedicated employees at L-S Industries are focused on customer service and creating a business partnership with our customers to deliver optimum value.

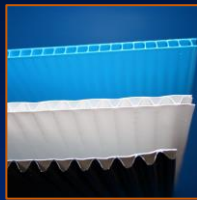

L-S Industries believes in recyclable packaging products to help limit the impact on our environment. We recycle all available scrap in our facility, and we encourage our customers to recycle the materials we sell them as well.
